### **Airline Options for Peru Running Adventures**

Airline tickets ARE NOT included in the land cost of our trips. We recommend you check the airline websites or contact them directly. Some travelers choose to use their "frequent flier" miles to request the airline tickets to Lima.

**It is no longer possible to quote the packages including airline tickets far in advance, however we will be reserving group airline tickets with LAN airlines departing from Los Angeles and from Miami for our Peru Running adventures and will be able to offer these tickets. We will not have price information for these airline tickets until late January 2007. Spaces will be limited. Please check with us early if you want this option!**

Estimated cost of airfare: Round-trip international air to Lima from US gateways (Los Angeles, Miami, New York, Atlanta and Houston) is approximately \$700 to \$900.

Andes Adventures will reserve and issue the airline tickets for travel within Peru (Lima to Cusco and Cusco to Lima). The cost for the internal flights is expected to be about \$285 to \$300

Estimated cost of LAN tickets all the way to Cusco (international + internal) around \$950 to \$1,050

We do not recommend that you issue the internal tickets for travel within Peru because it may be difficult to assure that you get the correct flights from Lima to Cusco and Cusco to Lima. Reservations get moved around and you may miss part of the itinerary in Cusco or Lima, as well as have to cover the cost of extra transfers on different schedules.

**Please always check with our staff BEFORE reserving and purchasing your airline tickets, or BEFORE redeeming miles to get your airline tickets. We need to verify your arrival and departure flights, and check that the number of participants meet trip requirements.**

The hotel in Lima is included the first night if you choose to sleep in Lima. We include the transfers in Lima for the airlines and flights specified below. If you choose to arrive in Lima on a different airline or flight, the cost of the transfer to the hotel in Lima is \$20 per person, as special arrangements have to be made.

On the following page are suggested flight routings for airlines that fly to Peru. Included are flights to Lima offered by LAN, American, Delta, Continental and IBERIA and KLM. Check the connecting flights from your city to the departing international gateways. Flight schedules are subject to change. New flights may be added, or schedules may change due to airline re-scheduling or daylight savings. Check for updated schedules with the airline.
